MACHPRENEURS

Build machines. **Not jobs.**

FOUNDED BY
DR. SAM TRABULSI

MACHPRENEURS.COM
MIDDLE EAST · US · AUSTRALIA

mach·pre·neur

/mak-prə-ˈnər/ *noun*

1. An entrepreneur who builds AI machines that bring in clients, content and revenue, so the business runs without them doing every task.

   "She stopped trading hours. She became a Machpreneur."

2. Someone who moves at Mach speed: tests fast, proves with numbers, and scales what works.

AR · ماكبرونور

رائد أعمال بيبني آلات ذكاء اصطناعي بتجيب العملاء والمحتوى والدخل، حتى يشتغل البزنس بدون ما يعمل كل شي بإيدو.

THE SHIFT

The world split in two.

Every business now has the same tools. What separates them is who uses AI, and who builds with it.

Using AI	Building with AI
Asks a chatbot for captions	▸ Runs machines that produce content daily
Still answers every message by hand	▸ Every lead answered in under a minute
Posts when there's time	▸ Publishes on every platform without the grind
Invisible when clients ask AI for a recommendation	▸ Named when clients ask ChatGPT and Gemini
Growth limited by their own hours	▸ Growth limited only by the machines they build

SHIFT 01

Search moved to AI

Clients ask ChatGPT, Gemini and Google's AI who to hire. The AI names two or three. Everyone else disappears.

SHIFT 02

Content became infinite

Volume is free now. Attention goes to whoever is consistent, specific and everywhere.

SHIFT 03

Speed became the moat

The first to reply wins the client. Machines reply at 3am. People don't.

People who use AI... and **people who build with it.**

Machpreneurs don't chase clients. **Their machines bring them.**

They don't post all day. **Their machines create.**

They don't wait for the future. **They build it, one machine at a time.**

Every machine tested. Every number shown.

This is not a course. It's a new kind of entrepreneur.

Build the machine.

WHAT WE BUILD

The Machines.

MACHINE 01

Visibility Machine

Makes AI recommend you. We map the questions your clients ask ChatGPT, Gemini and Google, then build the signals those AIs trust.

REPLACES — Hoping clients find you

MEASURED BY — Share of AI answers naming you, AI-referred visits

MACHINE 02

Content Machine

Turns your expertise into daily reels, videos and carousels, with your face or your AI presenter, in English and Arabic.

REPLACES — Posting when there's time

MEASURED BY — Posts published, reach, saves, enquiries

MACHINE 03

Sales Machine

Answers every DM and WhatsApp in under a minute, qualifies the lead and books the call, 24/7, with you approving what matters.

REPLACES — Leads going cold overnight

MEASURED BY — Response time, qualified leads, calls booked

MACHINE 04+

Next machine loading

Every new wave in AI becomes a new machine, but only after it passes the Proof Standard. Members get it first.

RULE — Nothing ships until it's proven

HOW IT WORKS

From idea to machine.

01

Map

We find where your business leaks time and money: missed leads, invisible to AI, inconsistent content. You pick the first machine.

02

Baseline

Before anything is built, we record the starting numbers: AI answers, response times, reach, leads. Every result is measured against this.

03

Build

We build the machine on your accounts, in your voice, with you approving every output that faces a client.

04

Prove

A live dashboard shows what the machine did. Every two weeks we compare against the baseline, and fix what doesn't move.

05

Scale

When one machine works, we add the next. The machines start feeding each other: visibility brings leads, content warms them, sales books them.

THE PROOF STANDARD

Every machine tested. Every number shown.

The AI market is full of screenshots, promises and deleted posts. We run on receipts.

01 Tested on ourselves first

Every machine runs on our own brand before it's offered to anyone.

02 Baseline before build

No machine starts without recorded starting numbers.

03 Results you can check

Dashboards, screenshots and links you can verify yourself.

04 Your accounts, your data

Everything is built on accounts you own. You keep it all.

05 Humans stay in control

You approve what speaks for you. AI does the work, you make the calls.

06 Nothing gets deleted

Wins and misses stay on the record. That's how trust compounds.

> WHAT WE NEVER SAY
>
> "Guaranteed income." "Passive millions." "Get rich with AI." We promise the machine, the work and the measurement. Results depend on your offer and your market, and we show them as they are.

WHO IT'S FOR

Built for builders.

Machpreneurs are

- ✓ Consultants, coaches and experts who are good and under-seen
- ✓ Clinics, agencies and service businesses with real clients
- ✓ Realtors and agents who live on leads and speed
- ✓ Founders who want a business that doesn't depend on their hours
- ✓ People ready to test, measure and improve

Not for

- × Anyone looking for money without a business behind it
- × People who want results without approving a single output
- × Trading bots, signals or "guaranteed returns"
- × Anyone who needs us to fake numbers

If you already deliver value and want machines to multiply it, you're one of us.

THE FOUNDER

Dr. Sam Trabulsi

Brand strategist, educator and builder. Sam has spent more than 14 years helping founders, coaches and experts turn what they know into brands people trust.

He holds a PhD and an MBA, lectures at university level, and builds the AI systems he teaches, in public. Through Brand Victory and Grow Success Online he has worked with businesses across the Middle East, the US and Australia.

Machpreneurs is where it comes together: the brand thinking of 14 years, and the machines AI now makes possible.

VOICE

WE SAY

Build. Machine. Prove. Numbers. Live. Next machine. "Welcome, Machpreneur." "Machine 02 unlocked."

WE NEVER SAY

Guaranteed income. Passive millions. Get rich. Secret system. Paper hands. Anything we can't show.

Become a Machpreneur.

Founding members get the first machines, the founding price and a seat in the circle that shapes what we build next.
